I tried to like the game, didn't work. The only interesting thing is the diary that lists everything that has happened to your group. That's about it. Shallow game, silly survivor interactions, too hard. You'll have to die and restart over and over until you figure out a way to beat the game. But by that time you'll be too bored.. The game mechanics feels wrong, in-game UI is horrible, game not registering that some tasks/missions are unable to be pursued any further, limitation of actions available.no, it is NOT enjoyable at all!
